East street, Logan, Utah, says: "You may continue to publish my endorse ment of Doan's Kidney Pills, given in September 1907. In the spring of that year, I was attacked by sharp pains across the small of my back and through my kidneys, caused by a strain. The kidney secretions became too frequent in passage and filled with sediment and I thus knew that my kidneys required atention. When living in England, I knew of a num ber of similar cases that had been cured by Doan's Kidney Pills and de ciding to try this remedy myself, I got a supply. It acted just as repre sented and before I had finished the contents of one box, my backache dis troubled me. I have since done i great deal of heavy work, but I have not had the least recurrence of kidney complaint."
